

EFTPOS PLUS

About this product

The EFTPOS PLUS merchant facility is our flagship acquiring product and is the market leading EFTPOS device. The EFTPOS PLUS terminal accepts all major credit and charge cards including MasterCard, Visa, Amex, JCB and Diners. It also accepts all Australian bank, building society and credit union debit cards.

Who is it for?

All mainstream retail merchants, including:

- Those processing more than \$100,000 pa in card transactions.
- Those requiring a multi functional terminal.
- Those requiring one or more terminals per site.

How can it help you?

As well as the standard credit and debit transactions, EFTPOS PLUS will also enable your business to operate more efficiently with features such as:

- XPOS – Generate revenue and increase foot traffic by selling electronic prepaid services such as mobile recharge or automate ancillary payment services such as gift cards at no additional cost.
- Multi Merchant – For professional practices, allows multiple merchants to trade via the one terminal.
- MOTO processing – Allowing the processing of mail and telephone order transactions.
- Store and Forward – Processes transactions under a merchant's floor limit during downtime and forwards them once the network becomes available.
- Tipping – To allow the capture of a tip as part of the transaction.
- Pre-Authorisation – To receive authorisation for a transaction before it is processed for value.
- Shift Totals – Facilitates totalling at the end of a shift.
- Multi-drop and cash register interface – Linking terminals together in a multi-lane environment.
- Cheque Validation – Via Certegy.

Features and Benefits

Feature/Benefit	Details
Choice of payment options	Makes it easier for customers to do business with your organisation. A wider range of payment options will help you to increase your sales.
State of the art technology	The EFTPOS PLUS terminal has provisions for upgrades and changing conditions built-in. The unit has been designed to accept smart cards when they become widely available in the near future.
Reduce risk	EFTPOS technology aids in the reduction of bad debt, the prevention of fraud and offers improved security by minimising the need for holding cash on the premises.
Support	Talk to us: 24 hours a day, 7 days a week technical support from our Help Desk. We also have a general merchant enquiries area operating 9am to 5pm, Monday to Friday.

Full terms and conditions, including any fees and charges, are available on application.
